Housing
Rugged anodizing quality extruded 6063 T6 aluminum with machined aluminum billet end caps secured with stainless steel fasteners. Vented heat-sink covers allow for superior heat dissipation and reduced solar loading extending operational service life. High impact UV-stabilized, polycarbonate provide efficient light transmission.

Electrical
Advance constant current electronic drivers multi voltage meets UL 1310 / UL48 Class 2 with a built-in over-temperature protection. Input voltage from 100-277. 347 and 480 volt is available (VAC 50-60Hz) Certified and tested to the North American UL 8750 Standard for wet location.

Lamping
Phillips Luxeon light emitting diodes (LED) mounted on heavy weight metal modular boards utilizing wire to board push-in connectors. Optical Quality Polymethyl Methacrylate (PMMA) Optics provide wide coverage uniform lighting distributions available in I.E.S. distributions : type 2, 3, 4, 5

Finish
Rugged, long life, oven baked polyester powder coatings with multi-stage pre-treatment for outstanding adhesion. Optional hard color anodizing provides superior protection in hash and corrosive applications.
Standard colors are White, Black, Bronze

Optional color inserted feature strips are available in a wide variety of standard colors.

Warranty
LED Luminaires are warranted against defects in material and/or workmanship for three years. LED modules and drivers are warranted for a period of (5) five years. *(See Detailed Limited Warranty for more information)*

WAVE Design 1
Light Emitting Diode Pole Mounted Luminaire

Slipfitter Mount (SLFT) - Single (B-1) (Designed to fit over 2 3/8" OD tenon)
Pole Mount (PM) Twin @ 90 (B-290)
Twin @ 180 (B2-180)
Davit Mount (DM) Triple @120 (B-3)
[*2-3/8" OD Davit arm*] Quad (B-4)
