Mounting Options

- B-1
 - B-2 90
 - B-2 180
 - B-3
 - B-4
 - TN1
 - TN2
- Paint
 WHITE (WHI)
 BLACK (MBK)
 BRONZE (BZS)
 SPECIAL (SPC)
- Anodizing
 CLEAR (CLA)
 BLACK (BKA)
 BRONZE (BZA)
- HINGED BASE (HBP) - Requires AA7 Anchor cage system
 RECEPTACLE (RCTL)
- Square Base (SQB)

Shaft: Anodizing quality extruded aluminum 6005 T5 alloy 35,000 PSI yield strength with an internal race way that provides strength, rigidity and transfers all associated loading into the corners. Mechanical compression method for joining components utilizes full yield strength. All internal fasteners carry 500 hour salt spray plating. A hand hole 2" x 5" opening is complete with gasket and Stainless steel screws and screw-type ground lug.

Base: Cast aluminum 713 alloy base designed to exceed the maximum pole loading. Unique integrated theft-proof one piece base cover is factory installed

Finish: Four stage chromate conversion processed pre-treatment with powder coated oven-baked painted finish providing superior appearance and durability. Optional hard color anodized finishes available.

Anchor: Hot-dipped, galvanized anchor cage and wooden positioning template ensure proper alignment with every pour.

Warranty: Twenty year comprehensive mechanical structural warranty. Three year finish and material warranty. All warranties are limited to replacement and/or repair.

All X-tron poles are in conformance with requirements of AASHTO Spec (5th edition) and IBC 2006. When specifying poles to 100mph and beyond consult factory for project verification prior to installation.

Note: EPA.'s. are calculated to severe exposure and include a 1.3 gust factor.

Certified to Canadian and US electrical safety standards for "Wet Location"

AA7 Anchor Assembly
 4 - 5/8" x 18" J-bolts
 c/w hex nuts and washers
 7" (178mm) B.C.D.

Note: Dimensions for anchor cage system are the same as shown.
